

DON'S MONTHLY MESSAGE

APRIL 2022

Hi everyone, I hope your spring has been going well and you can start planning your summer activities!

This will be my last note for the...season?

I was reflecting back to September when we had our registration days. All the hard work that people put in to make that happen, the new website, all the COVID protocols like QR codes and Proof of Vaccination by CurlOn, the Province and the City, the restaurant limitations, flow of traffic in the locker rooms, onto the ice, during play, boy that was a lot of work.

And then to have it all end with something out of our control. I think of all this work, and the patience you all had while we stumbled to make the season happen, and as I started feeling apprehensive to do it all again in the fall, I realized that actually, the season started off quite well!

We had a huge number of new members, online registrations and signups went well, and we came up with creative ways to adhere to protocols while still enjoying our game- we did it!

Although we only had about 2 weeks of curling I hope our new and existing members saw the enjoyment our sport can bring and the comradery within our club.

As I type this the pump has still not arrived, however, I do fully expect (hope) that it will be in for the start of our next season.

We are planning a golf tournament sometime in September and if this can happen, will keep you all posted on that.

In closing, I want to thank my fellow board members for pitching in and getting the season started so efficiently. Our convenors for making the teams and schedules, the volunteers for euchre, but most importantly I want to thank all our members. Not only for joining our club but for having patience as we navigated so many new and uncharted challenges.

I look forward to when we see each other next.

Thanks

Don
